

HEALTH & MEDICINE

Dr. Kelly Dabbs

From bedside to Boardroom, Dr. Kelly Dabbs is recognized as caring, compassionate and knowledgeable. Chair of the Breast Division of Cancer Surgery, Dr. Dabbs is passionately committed to providing patients in Edmonton area and beyond with the highest quality evidenced-based care for breast concerns and breast cancer. Dr. Dabbs also participates in continual education activities for health care professionals and the general public. Dr. Dabbs is a surgeon who devotes the majority of her practice to patients with breast cancer, having been drawn to this area by the fact that patients with breast cancer typically have more individual choices for treatment than other cancer patients. Her sphere of influence is reflected in an expansive list of professional associations, program developments, and grateful feedback from patients.
