Girls Support Group Consent Form

The purpose of the group is to offer a safe space for girls to gather on a drop-in basis every week to share their experiences coping with life's challenges in an honest, open, and safe environment. Participants in the program are involved in the design of each session and may bring a topic for discussion each week that is relevant to the lives of girls and young women in Canada.

Due to the importance of building trust within the group, information that group members share with the facilitator is treated as strictly confidential. It is important that your child have the freedom to express herself in the group with the knowledge that the specific details of what she says or does will remain confidential and not be revealed to anyone. However, if a group member is at risk of harm to self or others or if they disclose abuse or negligence from a caregiver — our therapists are legally required to report these incidences. Lastly, if the group facilitator is subpoenaed by law, there is a risk that the facilitator and information contained within her case notes may become disclosed. YWCA Edmonton Counselling Services will ensure that you are properly informed about relevant information that could impact your child's safety and well-being.

If you have any questions or concerns in regards to your child participation in the group, the facilitator will set up an individual meeting with you and your child to discuss these matters.

Members are reminded of the importance of keeping any information shared in the group confidential. However, it is important for both you and your child to understand that, due to the nature of group counselling, confidentiality cannot be guaranteed.

Please sign below to acknowledge that you understand and accept these risks and limitations of your participation.
